- Festival Bonus: 2 per year

COVER LETTER WORKSHEET

Preparation

1. To whom are you sending the letter?

Name (if any): Hiring Manager

Title: Hiring Manager

Company, Address: MVI Solutions, Dhaka, Bangladesh

2. Based on the job announcement key words and what you know about the job, what is the company looking for in a candidate? (What experience, results, skills, approach, and abilities do they need?)

- 5+ years of experience as a Full Stack Developer in a software company.
- Strong knowledge of Python, Django ORM, Django REST Framework, and SQL.
- Frontend skills: HTML5, CSS3, JavaScript, jQuery, and AJAX.
- Experience with AWS, CI/CD, Linux, performance tuning, and caching (Redis/Memcached).
- Ability to handle full end-to-end software development, 3rd-party API integrations, and legacy system maintenance.
- Independent, self-driven problem solver with excellent English communication skills.

Opening Paragraph

1. What is the exact title of the job? Senior Full Stack Developer (Python).

2. How did you discover the job was available? (e.g., job board, internet, placement center, professional meeting, referral, person in hiring firm, career fair, recruiter, etc.)

Found the job on bdjobs.com

Cite the url: <https://bdjobs.com/h/details/1506018?ln=1>

3. When was it published? 06 Jul 2026

4. Why are you interested in this particular job and company? (e.g., type of work, location, reputation, opportunities, etc.)

I am interested in this role because I am passionate about optimizing high-performance backend systems using Python and Django. MVI Solutions presents a great opportunity to take full ownership of projects, from managing

complex API integrations to improving legacy systems, which perfectly aligns with my expertise and career goals.

Middle Paragraph

1. **What do you have that matches those needs? (Experience, education, results, skills, approach, abilities. Please be specific.)**
 - Over 5 years of professional experience as a Full Stack Developer.
 - Expertise in Python, Django, Django REST Framework, and PostgreSQL.
 - Hands-on experience optimizing application speed using Redis/Memcached and writing complex SQL queries.
 - Strong frontend skills utilizing HTML5, CSS3, JavaScript, and AJAX.
 - Proficiency managing AWS deployments, Linux environments, and CI/CD pipelines via Git.
 - Completed my B.Sc. in Computer Science & Engineering from American International University-Bangladesh (AIUB).
 - Proven ability to work independently, mentor juniors, and handle legacy codebases.
2. **Determine the two or three areas that are the highest priority to the company.**
 - Leading the end-to-end development lifecycle, writing clean, secure Python/Django code, and integrating complex 3rd-party APIs.
 - Optimizing application and database performance, utilizing caching layers, and troubleshooting existing legacy systems.
 - Managing deployments through CI/CD pipelines on AWS/Linux while working independently and taking full project ownership.

Closing Paragraph

1. **What is the person expecting you to send? (e.g., resume, letter of interest, salary requirements, references, examples of your work)** CV with Cover Letter.
2. **What do you want to happen after you send the resume? (An interview, a phone call, an email, etc.)** An interview, or a response through an Email or Phone call to discuss my fit for the role.

Hiring Manager

MVI Solutions

Dhaka, Bangladesh

Dear Hiring Manager,

I am writing to express my strong interest in the Senior Full Stack Developer (Python) position at MVI Solutions, as advertised on Bdjobs.com. With over 5 years of professional experience driving the end-to-end software development lifecycle, a deep mastery of Python and the Django REST Framework, and a proven ability to take full ownership of complex projects, I am eager to bring my expertise in scalable backend architecture and system optimization to your team.

In my current role as a Senior Software Engineer, I specialize in designing and deploying robust applications on AWS and Linux environments. I have extensive experience optimizing database queries with PostgreSQL. My frontend proficiency ensures I can deliver cohesive user experiences using HTML5, CSS3, modern JavaScript, and AJAX. Furthermore, I routinely integrate 3rd-party REST and XML APIs for payment processing and CRM systems, ensuring secure and seamless data flow.

I hold a B.Sc. in Computer Science & Engineering from American International University-Bangladesh (AIUB). Throughout my career, I have thrived as an independent, self-driven developer who is equally comfortable architecting new features from scratch as I am refactoring and troubleshooting legacy Django applications. I am adept at managing CI/CD pipelines via Git and mentoring junior developers to foster a culture of high-quality code and continuous improvement.

I am highly motivated by the opportunity to contribute to MVI Solutions, particularly the challenge of optimizing APIs and managing robust cloud-based systems under tight deadlines. I have attached my resume for your review. I would welcome the opportunity to discuss how my technical skills, proactive mindset, and excellent English communication abilities align with your needs. I can be reached at 01643059399 or yeasinaraf12@gmail.com.

Thank you for your time and consideration.

Sincerely,

YEASIN ARAFAT

Personal Statement

Independent and highly analytical Senior Full Stack Developer with over 5 years of experience architecting and optimizing web applications. Expert in Python, Django ORM, and RESTful APIs, with strong capabilities in AWS cloud infrastructure, Linux, and CI/CD pipelines. Demonstrated success in leading end-to-end development, integrating complex 3rd-party services, and dramatically improving legacy system performance utilizing advanced caching (Redis) and database optimization. Excellent communicator committed to delivering secure, scalable, and well-documented software solutions.

Working Experience

2023 - Present

Senior Full Stack Developer

TechNova Solutions, Dhaka

- Lead the end-to-end development lifecycle for high-traffic enterprise applications using Python, Django, and Django REST Framework.
- Optimize application speed and reduce server load by 40% through rigorous performance tuning, PostgreSQL query optimization, and Redis caching.
- Integrate complex 3rd-party REST and JSON APIs for payment gateways (Stripe, SSLCommerz) and external CRM systems.
- Manage cloud deployments on AWS (EC2, S3) and maintain automated CI/CD pipelines using GitLab workflows within Linux environments.
- Take full ownership of legacy system improvements, independently troubleshooting and debugging existing Django codebases.

2021 - 2023

Software Engineer

BrainStation-23, Dhaka

- Developed full-stack web applications utilizing Python/Django on the backend and HTML5, CSS3, JavaScript, and AJAX on the frontend.

- Collaborated in fast-paced Agile teams to deliver features, actively participating in system design and code reviews.
- Wrote clean, well-documented, and secure Python code, ensuring adherence to PEP 8 standards.
- Mentored junior developers and assisted in maintaining version control best practices across multiple active repositories.

Educational Qualifications

2017 - 2021

Bachelor of Science in Computer Science and Engineering

American International University-Bangladesh (AIUB)

CGPA: 3.85

2015 - 2017

Higher Secondary Certificate (HSC)

Milestone College

GPA: 5.00 (Science)

2013 - 2015

Secondary School Certificate (SSC)

Milestone College

GPA: 5.00 (Science)

Technical Skills

- **Programming Languages:** Python, JavaScript (ES6+), SQL.
- **Frameworks & Libraries:** Django, Django REST Framework, jQuery, AJAX, Bootstrap.
- **Frontend Technologies:** HTML5, CSS3, Responsive Web Design.
- **Databases & Caching:** PostgreSQL, MySQL, Redis, Memcached, Django ORM.
- **Cloud & DevOps:** AWS, Linux, CI/CD, Git, GitHub/GitLab, Docker.

Competitive Advantage

- Mandatory excellent verbal and written English communication skills; adept at explaining technical concepts to stakeholders.
- Self-driven problem solver, highly capable of working independently under pressure and taking full ownership of project deliverables.

- Strong aptitude for modernizing legacy systems and ensuring continuous application maintenance and security.

Communication Skills

- Bangla (Native)
- English (Fluent/Professional)

Projects

- **E-Commerce API Architecture:** Designed and implemented a robust, scalable backend for an e-commerce platform using Django REST Framework. Integrated third-party payment and shipping APIs, reducing transaction processing time by 25%.
- **Legacy System Modernization:** Took ownership of an outdated internal CRM. Refactored the Python codebase, implemented a Redis caching layer, and optimized complex SQL queries to significantly improve page load times.
